

CMMI Level 5

Newgen is currently assessed at ML 3 of CMMI ver 1.2. We aspire to be assessed at Level 5 of CMMI during FY 2009-10. This will give us an ability to optimize processes to achieve improved results. As part of the CMMI level 5 initiative, our process capabilities will focus on cause identification and technologies incorporation-tools, methods and processes so as to facilitate continuous improvement in software quality and productivity.

How does it benefit our customers?

- Better requirement management
- Better process improvement goals and priorities
- Improved cycle time, productivity, and customer satisfaction
