

Newgen Software partners with Yindusoft

Newgen Software Technologies has signed an agreement with Yindusoft, to jointly offer workflow and document management software solutions to the manufacturing sector in Taiwan.

Newgen Software and Yindusoft are targeting a large base of companies operating through multi-location offices to offer software solutions to streamline their document-centric business processes, which would enable better productivity and faster decision-making.

Newgen's Workflow and DMS solutions are designed to help enterprises to save time and costs, and hence provide organizational agility and increase operational efficiencies.

Punit Jain, Vice-President – Sales & Marketing, **Newgen Software Technologies**, said, "Taiwan is one of the most progressive and technologically advanced markets in the world and its industry demands only the best software solutions. It is a great opportunity for us and we plan to capture a prominent share of the workflow and document management software market in the years to come."
